Here, at MYSTERY RANCH, we pride ourselves on building the finest load carrying products. We emphasize innovation out of need, and our MOLLE RADIO WRAP pocket is an example of this. Born from the specific demands of military, medical, and tactical professionals, MYSTERY RANCH products are built with purpose using the best materials available and the most durable construction methods that exist.

Custom designed to fit both AN/PRC 117G&F radios, our MOLLE RADIO WRAP cradles your unit in grippy Hypalon, for a stable, well-protected carry. Switching from larger format radios, like the 117F to smaller ones, like the 117G is done quickly with one buckle adjustment. Utilizing the stoutest materials and trims, the MOLLE RADIO WRAP does its job reliably for the long haul.

We design superior products for military personnel. Our packs are designed, sourced, and built entirely in the USA (Berry Compliant). This product is only available for purchase directly from MYSTERY RANCH.

Feel free to contact us if you have further questions.

Thank you.
