Here, at MYSTERY RANCH, we pride ourselves on building the finest load carrying products. We emphasize innovation out of need, and our HITCHHIKER 20 is an example of this. Born from the specific demands of military, medical, and tactical professionals, MYSTERY RANCH products are built with purpose using the best materials available and the most durable construction methods that exist.

The HITCHHIKER 20 is attachable storage featuring our rip-zip opening. It's designed to work with the NICE RATS, ROUS, and COMM3 packs, allowing you to carry more sustainment gear.

We design superior products for military personnel. Our packs are designed, sourced, and built entirely in the USA (Berry Compliant). This product is only available for purchase directly from MYSTERY RANCH.

Feel free to contact us if you have further questions.

Thank you.
