

## SHIFT 900 MWP

Our most modular system is designed to facilitate problem-solving in the operational fire environment. The removable MOLLE Wing Pockets (MWP) increase the SHIFT 900 from 16 to 20 liters, giving you extra space for fuel canisters, water bottles, and items you need to get to quickly.

### KEY FEATURES:

- 1 The zippered removable MOLLE-on Wing pockets hold up to three fuel bottles, three water bottles (40oz water bottle, FSS bottle) or one 64oz water bottle growler per side
- 2 Updated Attachment Points for adding lid accessories on top or bottom.
- 3 Shift 2 Frame has discreet storage sleeve keeps three fuses fully stowed yet accessible for those rare moments of emergency and urgency
- 4 CAL FIRE SPEC model includes HYDRO carrier and HYDRAPAK® 3.1L OHY Hydration Reservoir - insulated all-black hose, bite valve hardware, and dust cover
- 5 Double-layered Fire Shelter compartment built with additional reinforcement at key wear points—gift-wrap closure design minimizes debris and shelter can be set up for right or left-handed deployment
  - Triple-Spade system is color coded, and securely attaches modular Shift 900 MWP to Shift 2 Frame in seconds.
  - Operational Load Shelf helps haul hose packs, mount modules, and can carry other equipment as necessary
